Answer: C

Question: 3

You imported a transaction data file into an empty model using a data manager package. An hour later, a finance team member brings a new data file that needs to be imported. As you can see in the graphic, the new file has exactly the same records, with two exceptions:

1. The value of the Benefit Account has increased from 1500 to 1600.
2. There is a new record for the Direct Labor Account with a value of 160.

Which options can you use to update the data so that the latest flat file and the model have the same data?

Note: There are 2 correct answers to this question.

Note: Answers to this question are not verified by our experts, please study yourself and select the appropriate answers.

Contribute: Please send the correct answers with reference text/link on feedback@erpprep.com to get up to 50% cashback.

The data file that is imported.

Accounts	Category	Signed Data
Benefits	Actual	1500
